

*Even the most advanced technology can benefit from the human touch.*

# Trust, but Verify.

# VEO®

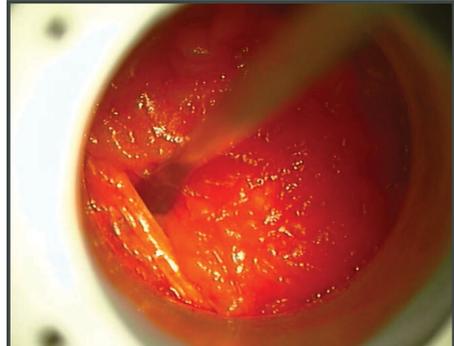

## Lateral Access System

The Vevo® Lateral Access and Interbody Fusion System is specifically designed for direct visualization of the psoas and associated nerves.

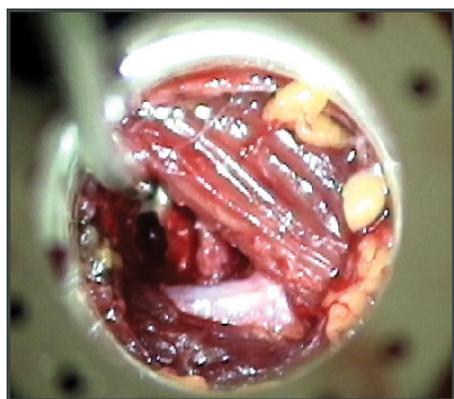

Vevo® allows you to augment neuromonitoring\* with one of your most reliable tools:

**Your sense of sight.**

*\*Vevo® is compatible with most IOM systems.*

Genitofemoral nerve under direct visualization

L4 nerve root under direct visualization
